CLIMATE & PEACE

When you give to them, they gather it up; when you open your hand, they are filled with good things.

—Psalm 104:28

Did you know...

Changing climates mean changing livelihoods, which can mean new tensions, like around Lake Chad where farmers, herders and fishers are competing for scarce resources. The more the land and water disappear, the more conflicts flare up, leading to displacement, violence, and instability. Meanwhile, failed crops mean new stress at home, and increased rates of gender-based violence.

Your support is helping...

CLWR and LWF are working to reduce tensions by restoring natural resources, promoting sustainable land and water management, and fostering dialogue between different groups through peace committees and community gatherings.

Please pray...

To our God of Peace, for these communities where the drying earth has strained the ties that hold neighbours together and frayed the bonds within families. Pray for understanding, healing for land and people, and for those who seek to make peace.
